To all concerned. Would you please take the offer Microsoft has put on the table. It may serve you well to get out and about to realize how much Microsoft has helped our children. I am unable to understand how people are so selfish to deny our children the vast spectrum of the best and most innovative software in the world-----for FREE ! They have to be self serving !! If it so important to hurt Microsoft in some way take them out behind the barn and slap them with a wet noodle. Thank God for Bill Gates and family that shares wealth like no other family-----and for the children not the "The States" with there hands out to use it where?// Donald E. Olsby, Carol M. Olsby, Cynthia A. Olsby, Dean E. Olsby, Daniel S. Olsby, David E. Olsby, just another American family that knows the "RIGHT THING TO DO"=Settle Now!!!! Go Microsoft Corporation they can't take your brains away!!
